PROFILE

Dynamic Web Developer specializing in building responsive full-stack applications and integrating AI technologies. Successfully delivered 25+ corporate client projects by collaborating directly with stakeholders, translating Figma designs into pixel-perfect interfaces, and developing custom AI features—including intelligent chatbots and automated response systems using OpenAI and Gemini APIs. Expert in crafting reusable UI components, optimizing application performance, and writing clean, maintainable code.

WORK EXPERIENCE

UI Systems Pvt. Ltd. | Jaipur, Rajasthan

Web Developer

Mar 2023 - Apr 2026

- Developed, optimized, and maintained 25+ responsive web applications and full-stack solutions using React.js, PHP, and WordPress.
- Engineered and integrated AI-powered features, including custom AI chatbots using OpenAI and Gemini APIs to automate customer support and deliver real-time intelligent responses.
- Built reusable UI components and integrated complex REST APIs using JavaScript, AJAX, and Axios for smooth data flow.
- Converted Figma/UI designs into pixel-perfect, mobile-first, and cross-browser compatible user interfaces.
- Collaborated directly with global clients for requirement gathering, project planning, effort estimation, and regular milestone updates.
- Maintained high code quality using Git/GitHub and worked closely with backend developers and UI/UX designers in an Agile environment.

Dharam Agencies | Udaipur, Rajasthan

IT Hardware & Operations Assistant

Jul 2019 - Dec 2020

- Provided technical support for desktop systems, hardware devices, printers, and peripheral equipment.
- Diagnosed and resolved hardware and software issues, reducing system downtime and improving operational efficiency.
- Performed system installation, maintenance, hardware upgrades, and troubleshooting.
- Managed IT inventory, device configuration, equipment setup, and asset tracking.
- Assisted end users with technical issues, ensuring smooth day-to-day IT operations.
- Gained practical experience in hardware troubleshooting, networking fundamentals, operating systems, and technical support.
